

## WILL FIGHT AGAINST TARIFF

FIFTY REPUBLICANS MEET THIS  
AFTERNOON TO LAY  
THEIR PLANS.

FIGHT ON SOME SCHEDULES

RATES ON IRON ORE, SUGAR AND  
HIDES NOT SATISFACTORY  
TO ALL.

HEAR AGAIN FROM ISLANDS

COMMISSIONER BENITO LEGAR-  
DA OPPOSED TO FREE TRADE  
WITH PHILIPPINES.

Washington, April 3.—A meeting of probably forty or fifty republican representatives will be held this afternoon to organize opposition to the Payne tariff bill. It will be attended by those standing out for an opportunity to vote on the hides, lumber, coal, iron ore and barley schedules.

Representative Stephen M. Sparkman, of Florida, opened the tariff discussion this morning before a small attendance. It is evident that interest in the debates is waning.

Sparkman made an earnest plea for the restoration of the Dingey rate on lumber and the imposition of 5 cents a pound on all cotton imported.

Mr. Kinkaid, of Nebraska, while declaring that he would vote for the bill, urged against taxing those necessities of life not produced in this country. The Philippine islands was again heard from when Resident Commissioner Benito Legarda, spoke in opposition to free trade between the islands and America. His views were followed by those of his colleague, Pablo Camacho de Leon, expressed yesterday.

He based his objection to the Philippine sections of the tariff bill on the provision which admits American goods in unlimited quantity into the islands without duty. He pointed out that the admission of 300,000 tons of Philippine sugar free into the United States would not improve conditions in the islands immediately because the industry had declined one-half during American occupation and because China was the natural market for sugar. Immediate benefit might not accrue to the tobacco industry either, he said.

"Had the proposition for reciprocal free trade been made before the Philippine assembly was constituted," said Mr. Legarda, "very little if any opposition would have been made to this measure. But today that assembly wishes us to respectfully present their wishes before this house in order that you who come so directly from the American people may pass judgment on the claims over those who exercise sovereignty."

"If instead of the free admission without limitation as to quantity of American products into the Philippine islands, this bill provided only the free entry there of agricultural machinery and other commodities of prime reciprocity, such as cotton cloth, and which are needed for the agricultural and industrial development of those islands, or if this bill provided only for such reciprocal exchange of commodities custom duty free as would balance the limited quantity of sugar and tobacco sent from there with an equally limited quantity of American products to be sent from here—if such were the provisions of this bill, it would be our pleasant duty as representatives of the Philippine people to make manifest to this house their gratitude."

The Philippine people are not ungrateful for what the American government has accomplished, and is accomplishing for them in those islands. In several respects the laws there are as good as in some of the most advanced states of this union.

"Congress has always been inspired

in its acts by principles of justice and wise equality. The Filipino people believe that coming before this congress with a just cause it will receive the same measure of equality as that which the American people have always in the past conceded under similar circumstances.

"My firm conviction remains unshaken that a prosperous and happy future smiled on the Philippine islands from the moment the Americans planted their flag there, which represents liberty, progress and civilization."

## DISAPPOINTS PEOPLE OF ITALY

SPEND ONLY FEW HOURS  
AT NAPLES.

BAD WEATHER DELAYS SHIP

PREPARATIONS FOR RECEPTION  
HAD BEEN MADE ON GRAND  
SCALE.

KING WILL NOT MEET TEDDY

SAYS THAT IT IS EXCEEDINGLY  
DIFFICULT FOR HIM TO  
LEAVE ROME.

Naples, April 3.—Disappointment was keenly felt here, owing to news that Roosevelt will not be able to spend the expected two days in the city. Preparations for his reception have been made on a grand scale in hope that the former president would stay two days and the report that he will be here but a few hours caused genuine sorrow.

The Hamburg will arrive Monday. It was due Sunday, but will not arrive until Monday owing to bad weather. Despite this they say the steamer Admiral, on which Mr. Roosevelt will be a passenger to Mombassa, will leave Monday night. Mr. Roosevelt therefore will have only a few hours here and this fact has upset all the plans of the people of Naples to receive him.

It is doubtful if Roosevelt meets the Duchess of Aosta, as his stay will be too short. The prefect of police has ordered a detachment of picked carabinieri to guard the docks on the arrival of the Hamburg Monday afternoon to prevent a possible breach of peace as well as to stop the importunities of the public. Emperor William has instructed the German consul at Naples to greet Roosevelt for him and to present a message of greeting.

The king told Mr. Bicknell that he was going to Messina, but that he could not decide when he would do so since it was difficult for him to leave Rome. The king during the audience was most affable to Mr. Bicknell and told him that Italy never would forget the generosity of America during the earthquake.

M., April 3.—Captain Fre Farnoff of the territorial mounted police and Sheriff Quintana arrived in Santa Fe over the Denver & Rio Grande at 4 o'clock yesterday afternoon, bringing with them Alvin Potter, charged with the murder in cold blood at Taos, March 26, of R. C. Pooler, chairman of the democratic county central committee of Taos county, and a prominent citizen of that section.

The officers were instructed to bring Potter for safe keeping to the penitentiary by Judge McFie, hurrying to the scene of the murder directly after it occurred, as the excitement was intense in Taos and violence was feared. The prisoner refused to talk and was hurried to the penitentiary by the officers.

Taos has resumed its normal quietude. The prisoner acted as if he were absolutely ignorant of the crime with which he is charged. According to reports Pooler was shot to death while sitting at a table in his house in the evening, the assassin firing through the window with a Winchester. Potter had on him when arrested after the shooting a weapon of the caliber of the bullet which killed Pooler. The murdered man, who was seated beside a lamp, fell into the arms of his wife when struck and died in a few seconds.

Potter, it is alleged, made threats against Pooler. The alleged murderer was heavily guarded in the Taos jail to avert a lynching.
